SkyTracker™ is a self-contained direct-to-satellite tank and home monitoring system that can be installed on any ASME tank in less than 3 minutes with no messy wires and no tapping into your telephone or power supply.

SkyTracker™ will let you look into your fuel tank to see:

- 🔥 Fuel level
- 🔥 Tank fill(s)
- 🔥 Usage history, graphs and logs
- 🔥 On-site degree days
- 🔥 Out-of-ordinary events such as excess fuel use compared to history or stuck float gauge

With SkyTracker™, you have web access 24/7/365 to your home's fuel system and can receive alerts by email or text message. Ask your propane dealer today about With SkyTracker™ Tank and Home monitors and With SkyTracker's™ website access rights for end-users.

SkyHelp Services™
North American Satellite Corporation

In addition to keeping you supplied with fuel information, monitors of SkyHelp Services™ protect you and yours from carbon monoxide and propane gas poisoning. Plus, SkyHelp™ indoor temperature sensor protects pipes from freezing.
